meeting!

# Bright Spaces for Bright Ideas

**Ultra-flexible spaces with floor-to-ceiling windows.**

Meeting rooms can shrink for more intimate gatherings while foyers can transform into happy hour hangouts.

**Onsite, covered parking.**

Meet steps away from our 400-space parking garage and breathe easy. Better yet, learn how to provide prepaid parking vouchers for your guests.

**In-house catering and audio-visual support.** We've got linens, tables, catering and audio visual support covered. Plus, you'll get a complimentary event manager to guide you every step of the way.

**Integrated sustainability.**

Meeting responsibly is in our DNA. With bird friendly glass, solar panels and an ORCA food digester to prevent food waste, Baird Center was built with the Earth in mind.

**Captivating We Energies Foundation art collection.**

Did you know Baird Center is home to one-of-a-kind pieces from a diverse group of over 30 artists? Bring your big ideas to life alongside breathtaking artwork that's anything but ordinary.
